IIT Roorkee | Indore, Madhya Pradesh

PROFESSIONAL SUMMARY

Associate Product Manager (APM) and product strategy-focused undergraduate at IIT Roorkee with experience in user research, business analysis, market research, retention strategy, and data-driven problem solving. Skilled in Excel, SQL, Tableau, KPI tracking, business analytics, and product analytics with strong interest in product management, growth strategy, and business analytics roles.

EDUCATION

Indian Institute of Technology Roorkee <i>Bachelor of Technology in Chemical Engineering</i>	Roorkee, India 2024 – 2028
Annie Besant School <i>CBSE Class XII</i>	Indore, India 2023

EXPERIENCE

Seed-Stage Architecture Technology Startup <i>User Acquisition & Market Research Intern</i>	Apr 2026 – Present Remote
– Conducted market research and user acquisition analysis during the beta-launch phase for an early-stage architecture technology startup – Built and verified a structured database of 150+ faculty and institutional contacts across IITs, NITs, and architecture colleges using Excel-based data tracking – Supported stakeholder communication and onboarding coordination for prospective institutional beta users – Tracked outreach performance, engagement patterns, and follow-up workflows to improve response management efficiency	

POSITIONS OF RESPONSIBILITY

Career Development Centre, IIT Roorkee <i>Manager – Research & Analytics</i>	Aug 2025 – Present Roorkee, India
– Collected, cleaned, and organized placement and internship datasets for 500+ students across multiple recruitment cycles – Prepared structured reports, placement insights, and student-facing documentation using Excel-based reporting workflows – Conducted candidate outreach to verify compensation data, internship conversion statistics, job roles, and hiring trends – Generated business insights from placement datasets to support reporting, business analysis, and trend evaluation	
Departmental Representative – Chemical Engineering <i>Placement Coordination Representative</i>	Oct 2025 – Present Roorkee, India
– Coordinated communication workflows between the placement team and 200+ chemical engineering students during recruitment cycles – Managed resume review coordination, placement updates, prioritization tasks, and student query resolution activities	
NSO IIT Roorkee & Institute Weightlifting Team <i>Team Leader & Athlete</i>	Sep 2024 – Present Roorkee, India
– Mentored and trained 25+ first-year students through structured practice schedules and event preparation sessions – Coordinated attendance tracking, participation planning, and team activities for institute-level competitions	

PRODUCT MANAGEMENT & STRATEGY PROJECTS

Perplexity India GTM & Retention Strategy | *Product Management & Strategy Case Study* Feb 2026

- Developed a go-to-market and retention strategy evaluating Perplexity AI's Airtel partnership and monetization challenges in India
- Segmented users into 3 behavioral cohorts based on onboarding friction, engagement patterns, and subscription intent
- Designed onboarding improvement recommendations and lifecycle engagement strategies focused on customer retention and conversion optimization
- Defined product metrics and KPIs including DAU, feature adoption, churn indicators, engagement frequency, and retention analytics

India's Quick-Commerce Retention War | *Business Analytics & Competitive Strategy Analysis* Mar 2026

- Performed competitive benchmarking across Blinkit, Zepto, and Swiggy Instamart to analyze customer retention and engagement strategies
- Evaluated pricing models, subscription offerings, delivery experience, and app engagement mechanisms influencing repeat customer behavior
- Analyzed discount-led acquisition strategies and their impact on churn risk, retention performance, and long-term unit economics
- Developed business strategy recommendations focused on retention improvement, customer trust, and sustainable growth metrics

Reducing Missed Appointments in a Telemedicine Platform | *Product Analytics Case Study* Jan 2026

- Mapped the end-to-end user journey from appointment booking to consultation to identify high drop-off and low-engagement stages
- Identified onboarding friction points and reminder-system gaps contributing to delayed or missed consultations
- Designed revised onboarding and post-booking workflows to improve engagement consistency and user experience
- Prioritized product features and workflow improvements using impact-versus-effort analysis and business prioritization frameworks

TECHNICAL SKILLS

Analytics & Business Tools: Excel, SQL, Tableau, PowerPoint, Notion, Gamma

Product Management & Strategy: Product Management, Product Strategy, User Research, Market Research, GTM Strategy, Product Analytics, Product Metrics, KPI Tracking, User Segmentation, Funnel Analysis, Retention Analysis, Competitive Benchmarking

Business & Technical Skills: Business Analysis, Business Analytics, Business Insights, Data Analysis, Dashboarding, Reporting, Data Visualization, Technical Problem Solving, Prioritization

Soft Skills: Analytical Thinking, Problem Solving, Communication, Leadership, Stakeholder Management, Team Coordination, Strategic Thinking

Certifications: BCG Strategy Consulting Virtual Experience Program (Forage), Winter Consulting '25 – IIT Guwahati, Advanced Excel & Data Analysis

ACHIEVEMENTS

Academic Achievements

- Secured World Rank 127 among 500+ global teams in Physics Brawl Online (Category C)
- Qualified NTSE Stage-I (2021)

Sports Achievements

- Silver Medal – Aarohan '25, IIT Ropar with a total lift of 182 kg
- Bronze Medal – Spardha '24, IIT BHU in the 77 kg category
- 1st Position – RRCAT Pickleball Summer Tournament (2019)
